Loan Origination Systems & Asset Management Systems Commercial

Retail

All of Canada's relevant systems will be evaluated by leading experts and a detailed analysis will be provided. The main focus for this report is Asset, Loan, and Deposit applications, however, core banking is also reviewed as well as a detailed company overview. Over 200 metrics covered for each category. The systems reviewers have shared system selection experience and systems implementation exceeding 60 financial institutions.

Vendor Overview

An entire product history will be provided for each vendor showing trends over the past 5 years. We will also provide a supplement with detailed case studies for loan origination and core banking systems for each vendor. Client lists and other key company vitals will be included. Individual company reviews are typically 10 - 20 pages in length and cover all the facts.

Country Overview

The report includes a graphical breakdown of most system selections in Canada. A breakdown of deals by: supplier, type of system (commercial, retail, loan, deposit...) outsourced, facilities managed, client managed.

Graphical market breakdown: deals won, value of deals, market share, deal types, product breakdown.
